PROFESSIONAL SUMMARY

Microsoft Certified: Power BI Data Analyst Associate (PL-300) and **Data & BI Analyst** with 3+ years of operational platform leadership and ~2 years of experience engineering **Python ETL pipelines, Star Schema SQL models, and interactive BI dashboards (Power BI, Tableau, Excel)**. As Founder & Lead Analyst of a **3,500+ member** marketplace, built automated Python/Excel BI systems tracking **213,750+ EGP** across **574 subscriptions**, achieving a **53.54% customer renewal rate** and **+30% conversion uplift**. Graduate of the **MCIT DEPI Data Analyst Specialist** track and currently in the **DEPI Data Engineering** track.

PROFESSIONAL EXPERIENCE & INTENSIVE TRAINING

Founder & Lead Data Analyst | FUT Black Market — 2023 – Present | Remote

- Founded and scaled a **3,500+ member** digital trading platform, owning pricing strategy, cohort retention, and automated BI reporting.
- Engineered a Python (`discord.py`, `Pandas`, `openpyxl`, `Regex`) ETL pipeline & **15-sheet Excel BI + HTML dashboard suite** tracking **213,750 EGP** across **574 subscriptions** (491 paid, 45 giveaways) with incremental state checkpointing.
- Drove a **53.54% customer renewal rate** (returning users generating **44.9%** of lifetime revenue), **717.28 EGP average LTV**, **+25% community engagement**, and **+30% subscription conversion uplift** while eliminating 100% of manual ledger entry.

Data Engineering Trainee | Digital Egypt Pioneers Initiative (DEPI — MCIT) — 08/2026 – Present | Egypt

- Advancing through MCIT's **Data Engineering** track: building modular **Python (`Pandas`, `NumPy`, `SQLite`) ETL pipelines** with schema validation, data quality auditing, deduplication, and automated `pytest` verification.

Data Analyst Specialist Trainee | Digital Egypt Pioneers Initiative (DEPI — MCIT) — 06/2025 – 12/2025 | Egypt

- Completed MCIT's 6-month **Data Analyst Specialist** track in **T-SQL, Star Schema Modeling, Power BI (DAX, Power Query), Tableau, and Python**.
- Delivered a verified **15,050 EGP ($315 USD)** commercial data automation contract deploying an automated Discord-to-Excel BI pipeline.

KEY DATA ANALYTICS, BI & ENGINEERING PROJECTS

Discord Member Intelligence & Modular ETL Suite (v2) | Python, Pandas, openpyxl, Regex, JSON, pytest — 2025 – 2026

- Architected a multi-package Python BI system (`discord_analytics/`) parsing unstructured bot event logs via incremental snowflake checkpointing into a **15-sheet Excel BI workbook**, standalone **HTML dashboard**, and automated **Data Quality Audit report**.

EA FC Quantitative Market Scanner, SQLite ETL & FastAPI Engine | Python, FastAPI, SQLite, Playwright, pytest — 2026

- Built a live **Playwright/curl_cffi to SQLite** ingestion pipeline and quantitative engine computing **P15/P85 support/resistance, SMA-6h/24h crossovers, RSI-14, Bollinger volatility, and Z-score** (adjusted for 5% tax), backed by a **FastAPI + Chart.js** UI and **21 passing `pytest` tests**.

UK Train Rides Operational BI, Star Schema & Demand Forecasting | T-SQL, Python, Tableau, Excel — 2025

- Modeled **31,653 UK railway records** (£742K revenue, 65 routes) into a **7-table Star Schema** (`Fact_TrainRides` + 6 dimensions), wrote a **1,185-line analytical T-SQL script**, trained **SARIMAX & Prophet** demand forecasts, and built interactive **Tableau** dashboards.

SQL Mastery & Analytical Data Modeling Library | T-SQL, PostgreSQL, SQLite — 2026

- Authored analytical SQL scripts demonstrating **multi-CTE cohort retention matrices, RFM segmentation (`NTILE(5)`, `PERCENT_RANK()`), window functions, Star Schema KPIs, and data deduplication patterns**.

EDUCATION

Bachelor of Computer Science | Mansoura University, Egypt — 09/2024 – Expected 2028

Coursework: Database Systems, Data Structures & Algorithms, Statistics & Probability, Object-Oriented Programming (OOP), Software Engineering.

CERTIFICATIONS & VERIFIED CREDENTIALS (7 VERIFIED CERTIFICATES)

- **Microsoft Certified: Power BI Data Analyst Associate (PL-300)** — Microsoft (Oct 2026 – Oct 2027 · ID: `AF02F790E1DB3A20` · Cert #: `83B668-7BF96D`)
- **DEPI Data Analyst Specialist** — MCIT Egypt (Jun–Dec 2025)
- **Python for Data Analysis: Pandas & NumPy** — Coursera (`DTNPUJI311AA`)
- **Prepare Data for Exploration** — Google / Coursera (`H8O90CEZVAVD`)
- **Ask Questions to Make Data-Driven Decisions** — Google (`CW0GRVR5BUQJ`)
- **Foundations: Data, Data, Everywhere** — Google (`B6XY7T73YXGK`)
- **SQL (Basic) Certificate** — HackerRank (`D81D81B8371F`)

TECHNICAL SKILLS & LANGUAGES

BI & Analytics: Power BI (DAX, Power Query, Star Schema Modeling, KPI Dashboards), Tableau, Advanced Excel (Power Query, Pivot Tables, `openpyxl`), Cohort/Churn/LTV/RFM Analytics, Time-Series Forecasting (SARIMAX, Prophet).

Programming, ETL & Databases: Python (`Pandas`, `NumPy`, `statsmodels`, `scikit-learn`, `FastAPI`, `Playwright`, `discord.py`, `Regex`, `pytest`), SQL (`T-SQL`, `PostgreSQL`, `SQLite` — CTEs, Window Functions), Git & GitHub Actions | **Languages:** Arabic (Native), English (Fluent), German (Basic).
